Slipped A Cog.

The "Back on the farm" company
struck a snag of some kind at Somer-
set and did not get here Friday night,
as announced in THE RECORD. It
may be well for the show people, as
the weather was too disagreeable to
venture out.

Lancaster. It will be money in your
pocket to examine these lines. Price,

Scare About Over.

The Small-pox scare at Stanford is
about over. The Journal says:
"Dr. Bailey says that Sowder, the
only patient here, after having a bad
day or two, is getting along well now,
and that his trip to the Walnut Flat
section yesterday disclosed no new
cases, the ones heretofore reported
getting along finely.

To the Point.

A new reporter to the Chicago Post
brought in this item: "A man killed a
dog belonging to another man. The
son of the man whose dog was killed
proceeded to whip the man who killed
the dog of the man he was the son of.
The man who was the son of the man
whose dog was killed was arrested on
complaint of the man who was assailed
by the son of the man who was as-
saulted and killed.

Help the Y. M. C. A.

The young men have made arrange-
ments for the appearance of Frautz's
Moving War Pictures in the Court
House tomorrow night-Friday. Cor-
rect representations of various battles
are given and the ships and men move
just as in the fight. This is the most
wonderful entertainment on the road
and you should see it. The Y. M. C. A.,
get a per cent of the proceeds, which
will help them greatly in their work.

Slightly Delayed.

The miserable weather has delayed
work on the hotel and opera house,
but when the sun does shine the men
get a move on them and make up for
lost time. The cellars are more than
half done and the men are now dig-
ging on the excavation to be used for
dressing rooms under the stage. In
the mean time work on the lumber is
being pushed rapidly in the Lancaster
Planing Mills and it will be ready in
ample time.

Told the Truth.

A local paper published a long
obituary of a man who had died in the
community, closing with the state-
ment that "a long procession of peo-
ple followed the remains to their rest-
ing place." The family read the no-
tice and discovered the supposed
error and asked the editor to make a
correction in the word "roasting," but
he said he could not do it until the
seven years' back subscription de-
creased owed had been paid.—Jes-
samine Journal.

Patent Granted.

Mr. J. Raymond Haselden, one of
our hardware merchants, has been
granted a patent on a filter he recently
invented. The filter is made so as to
give perfect ventilation to the char-
coal, which usually rots from remain-
ing wet. The dirt is caught in the
bottom and can be let out after each
rain by removing a cap. Every cistern
should be properly protected by a
good filter, and by calling and exam-
ining this one you will readily see he has
what you need.

Thoroughly Equipped.

J. A. Beazley has purchased a beau-
tiful pair of gray horses to work to his
hearse, which makes his outfit one of
the most complete in Central Kentuck-
y. He is thoroughly versed in em-
balming, having taken a complete
course in that branch of his business.
A handsome line of caskets and
shrouds are kept constantly in stock,
as is also everything necessary in an
up-to-date undertaking establishment.
His team and hearse have been pronoun-
ced one of the handsomest ever seen in
a country town.

Colored Recruits.

The War Department has wired Lt.
W. T. Johnston, recruiting officer at
Lexington, Ky., to enlist colored ap-
plicants for Cavalry and Infantry ser-
vice, sending the former to Fort Grant,
Arizona, and the latter to Fort Doug-
lass, Salt Lake City. This is an ex-
cellent opportunity for young colored
men to get into the regular Army.
Recruit for white Infantry and Caval-
ry regiments are also wanted. Apply to
LIEUT. W. T. JOHNSTON,

NEW RAILROAD.

The Proposed New Line Seems to Be
Within Reach of Garrard County.

As stated in our last issue, the pros-
pects for Garrard county securing an-
other line of rail road are very bright.
Since last report, the Southern has
purchased the Air Line which runs
from Louisville to St. Louis and the
West. This gives them several hun-
dred miles of road on the other side of
the Ohio river. Now, with their
Southern lines running from Middles-
boro on to the sea board, it is quite
reasonable to infer that a connecting
road between these two points is
desirable. The Southern already owns
the Louisville Southern, which runs
from Louisville to Burgin. The dis-
tance from Burgin to Middlesboro is
ninety-seven miles and the route
would take the road through counties
offering the richest coal and timber
lands in the state. Thousands of acres
of the finest virgin forests would be
opened up, in addition to the South-
ern completing a trunk line from the
south to St. Louis. The building of
this road would be the best thing
that could possibly be done for Gar-
rard. This being the closest town
to the coal and raw timber, we could,
by putting in a system of water works,
be prepared to offer the most flatter-
ing inducements to manufacturers.
As to the advantage to be derived
from having competing lines for
freight, its no use to waste time speak-
ing of.

If the line is built it will more than
likely go by the survey made several
years ago for the Louisville Southern,
and pass through Bryansville, Camp
Nelson, Lancaster and on out to the
Rockcastle line. We do not see why
there should be any trouble whatever
in securing the right of way, as every
man can readily see the ten-thousand
ways in which the county and town
will be benefitted. It seems to us
that the thing to do is every fellow
to put his shoulder to the wheel and
give a united pull to get the road.
If one will stop and think a moment he
will come to the natural conclusion
that unless we do take advantage of
this golden opportunity we had as well
fold our hands and become reconciled
to be behind the times henceforth and
forever. It will not increase taxation
whatever; dont let anyone crowd that
idea into your head. The law now
prohibits the voting of a tax to help
railroads. All we will have to do is to
secure the right of way, and this, we
firmly believe, can be done, as the road
runs over the lands of men who are for
progress, and besides, can see the great
advantages to be derived from the road.
No mans land can possibly be damaged
as much as benefitted by the road pass-
ing through it, and every land-owner
can more than afford to donate the
right of way. It should be remembered
that under our new constitution not
one dollar can be appropriated toward
railroads, and no one need fear that
there will ever be a vote to issue bonds
for any such purpose. We are inform-
ed that the road will be a CERTAINTY
if owners of land through which it
passes will give the right of way. But
the railroad company cannot pay
thousands of dollars for rights of way
and then spend the estimated two
million for construction of the road.

A later report says "Samuel Spencer
has made a proposition to lease the
Cincinnati Southern railroad from the
city of Cincinnati, to be run in con-
nection with the Southern railway.
He offers to give \$1,000,000 a year rent
and 4 per cent. on gross earnings above
\$4,500,000," which goes to prove that
the Southern is anxious for an outlet
to the south. Now is the time to
strike and go after the road to get it.

It is gratifying to see the interest
people in other counties are taking in
the matter. Mercer guarantees the
right of way, as has also three other
counties on the other side of us. The
main thing to be done is getting the
right of way here in Garrard, and
while there is a possibility of some
slight opposition yet we hardly think
it probable. We cannot see how any
man with a thimbleful of business
sense can oppose granting a right of
way to a road which will increase the
value of his land three-fold. The Lan-
caster Commercial Club is going at the
matter in earnest and unless some un-
foreseen obstacle is encountered the
road will be secured.

WELL PLEASED.

On the first of March we completed our
first year's business. We have taken account of
stock, figured up, and can truthfully say we are
WELL PLEASED with the result.

The volume of our business was larger than
we expected the first year. Now we want to thank
the people of this and adjoining counties for their
VERY KIND and LIBERAL patronage, and ex-
tend to one and all an invitation to call and see
us when in need of anything in our line. It is
our purpose to keep a good, first class stock of
Merchandise and sell for CASH at a very small
profit. Most any one can sell cheap goods cheap,
but it is not every one that can sell GOOD
GOODS CHEAP. The volume of our business is
such that enables us to buy in large quantities di-
rect from manufactures and get the very
LOWEST POSSIBLE PRICE. So this enables
us to sell GOOD GOODS CHEAP.

We will continue our line of premiums this
year and give to every purchaser a coupon ticket
that will entitle them, (when they have secured
the required amount) to one of our handsome
premiums FREE.

Second Kentucky Boys.

Lt. W. T. Johnston, recruiting officer,
in talking of the increase of the
army, said "The War Department is
already taking steps to increase the
army to the new limit, and I
received a telegram Friday or Saturday
asking what was the best plan to
hurry recruits into the army to fill out
the regiment, and I judge that every
recruiting officer in the country received
a similar telegram. All the recruiting
officers are keeping their clerks
busy enrolling recruits, and it seems to
me that no difficulty will be experi-
enced in filling out the army.

Mr. Pilcher Here.

Mr. Thos. Pilcher, of Nicholasville,
was in town Saturday, and being an
old newspaper man, came up to watch
the boys stick type and talk shop with
us. He established the Nicholasville
Democrat many years ago, and did
faithful and effective work through its
columns for the advancement of his
party's interests. Having been in a
newspaper office since early boyhood,
he has naturally acquired much knowl-
edge of men and matters. He is a
candidate for Rail Road Commissioner
for this district and while in our city
met with much encouragement. Mr.
Pilcher is the first candidate Jessa-
mine has offered for a state office.
That county, being a next door neigh-
bor, has always stood up for anyone
Garrard ever offered and in several
conventions put in timely links for
Garrard entries. Mr. Pilcher is not
tied to the apron string of any politi-
cal faction, and told us he stood flat-
footed upon the Chicago platform.
While it is not the purpose of THE
RECORD to dabble in politics yet we
must say that a better man than Tom
Pilcher can not be found for a public
trust. If he is given the standard he
will surely keep it aloft and free from
stain.

To Build Opera House.

Our Danville friends are figuring on
building a handsome opera house.
This would benefit Lancaster also, as
more and better troupes would come
where a good route could be secured.
The Advocate says: The promoters
of the scheme are at present looking
around for a suitable location, and if
an option on a lot can be gotten at a
reasonable price, the other details will
be taken up. The idea is to erect a
two or three story building, to contain
a modern opera house, a lodge room,
two store rooms, and a library room.
The gentlemen back of the enterprise
believe that a comfortable, well equip-
ped opera house, with a stage suitable
to the demands of the larger companies,
would be well patronized. The build-
ing, if it is erected, will be put up by
a company organized upon the plan of
the one which is building the hotel and
opera house at Lancaster.

He Opposed Them.

At a great expense we secured this
picture of one of the fellows who said
Lancaster would not have telephones,
electric lights, better train service,
Sunday mails, new hotel, an opera
house, etc., etc. He was in the act of
talking against the proposed railroad,
but the crowd didnt care to hear him,
and this is what they did:

sen's Honey of Tar will relieve it.

HOPKINSVILLE, Ky., March 7.—Amid the dust and debris of an old desk that has stood neglected in the Bank of Hopkinsville for over 35 years there just been discovered a little dingy memorandum book, in which are inscribed the names of the "not unknown confederate dead," who lie buried in the cemetery of this city beneath the handsome \$10,000 monument, which John C. Latham, the New York banker, a native of Hopkinsville, caused to be erected over them in 1887. The memorandum book belonged to George K. Anderson, Cotton Gin Post-office, Tex. The only entries in it are relative to the dead soldiers.

Above the list of names is the following: "A list of confederate soldiers belonging to 1st and 3d Mississippi, 7th Texas, 8th Kentucky and Forest's cavalry, who died and were buried in the cemetery at Hopkinsville, Ky., in the fall and winter of 1861-62. Kidney Diseases
CURED THAT HAD BEEN pronounced incurable
Mr. G. A. Stillson, a merchant of Tampico, Ill., writes: **FOLEY'S KIDNEY CURE** is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I, myself am able to testify to its merits. My face to day is a living picture of health, and your Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and to day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities.
